

Points of Demarcation - Wastewater

Extracted from:

Table 10 of

Air Force Utilities Privatization - Request for Proposal (RFP)
(Attachment JA4 Wastewater Collection System Template –
SEPTEMBER 2009_REV MAY 2010)

Point of Demarcation	Applicable Scenario	Sketch
<p><i>WITHIN HOUSING AREAS</i></p> <p>POD is where the service line connects to the wastewater collection main.</p>	<p>Residential structure. There may or may not be a sewer system cleanout device located on the service line.</p>	 <p>The sketch illustrates a residential structure (represented by a rectangle) connected to a sewer collection main (represented by a vertical line on the right). A horizontal pipe, labeled 'Service Line', runs from the structure to the main. A 'Pipe Cleanout' is shown as a vertical line with a cap on the service line. The 'Point of Demarcation' is indicated by an arrow pointing to the connection point between the structure's service line and the main sewer collection main. Labels include 'Sewer Collection Main' at the top and bottom, 'Structure' on the left, 'Pipe Cleanout' above the service line, and 'Service Line' to the right of the main.</p>
